Subject: FW: Pesticide Data Program (PDP) Presumptive Tolerance Violation (PTV) Summary report for November 1, 2017

Does **Deliberative Process / Ex. 5** 40 CFR 180.1240 indicates **Deliberative Process / Ex. 5**. The Fed register doc 06-436 published in 2006 exempting thymol from a tolerance does not seem to **Deliberative Process / Ex. 5**.
Deliberative Process / Ex. 5 I am meeting with Lauren and Charlotte in a few minutes to discuss the PDP findings.

Thanks,

Chris

It may, however, be an indication that the label was not followed, as thymol applications are not allowed when honey supers are present. You may want to let Chris know.

Thymol is exempted from tolerance per 180.1240(b). FDA would not consider thymol in honey a presumptive violation.

Greetings,

Attached is a copy of the PDP presumptive tolerance violation (PTV) summary report for November 1, 2017. This report represents results for data that were reviewed by the PDP Chemists since the October 4th report. Please don't hesitate to contact me if you have any questions.

Best regards,

Jonathan F. Senn-Carter
